You are open, direct, and straightforward. You believe that honesty, awareness, and ownership are the direct routes to problem solving. You own your job as if it was your own company.

About This Role

Depending on your skill set, you'll either write scripts for clients, review scripts written by another script writer, or both.

When reviewing scripts, you can lend an objective eye to their scripts to make sure they make sense to their prospective clients. You'll also make sure the formatting and length of the scripts fit within our guidelines.

4) Video Reviewer-

When our video editors submit the first cut of their whiteboard animated videos, you will review the videos to make sure they communicate the scripts' message clearly with the visual animation images the editor chose. You'll also make sure the videos' images are compliant for the financial services industry. You'll record any recommended edits and submit that to our editor using our system.
